

Excelling your Unified Communications Experience

Certified for

Skype
for Business

The Microsoft – Sennheiser Cooperation

The Certified for Skype for Business Sennheiser headsets and speakerphones enable people to communicate with plug n' play simplicity, proven compatibility, and high-quality audio.

Sennheiser headsets and speakerphones have been fully tested to ensure compatibility with Skype for Business. You can answer or end calls, adjust volume, or mute calls through the headset or speakerphone's call control features.

The combination of Skype for Business together with Sennheiser headsets and speakerphones provides superior sound quality, excellent comfort and user focus for Contact Centers, Offices and Unified Communications professionals thus ensuring an optimal user experience.

Sennheiser-Microsoft Evaluation Program

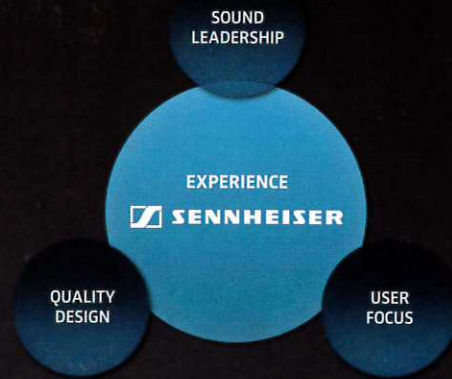

The Sennheiser – Microsoft Evaluation Program is established for you to try out our headsets and speakerphones before making a final decision on a solution for your Skype for Business Unified Communications deployment.

We think that "hearing is believing", which is why we would like you to validate our products together with Skype for Business.

For more info or to enroll in the program, please visit:

Experience Sennheiser

Sound leadership

For 70 years the name Sennheiser has been synonymous with the highest quality products across all areas of sound recording, transmission and reproduction. This expertise has enabled us to create a range of business headsets and speakerphones that lets you and your listener focus fully on your conversation – even in noisy environments. Add Sennheiser Voice Clarity and you'll experience audio quality like you've never heard before.

Quality design

Every headset and speakerphone we create is designed to look as good as it sounds. There's also an unmistakable sense of quality in the design of our products. This is because we believe that selecting the right materials is crucial when building to last. This unique combination of form, function, and quality has been recognized by many international award panels and millions of professional users around the world.

User focus

Sennheiser headsets are designed for long use throughout a working day. This is why we pay so much attention to your comfort – from super soft ear pads to personalized fittings and varied wearing styles. However, comfort is nothing without safety, which is why hearing protection is paramount in all our headsets. With our patented ActiveGard® technology you are always protected from potential acoustic bursts and sudden sound surges and can feel confident that your hearing is never at risk.

Nothing beats experience

No matter how much we try to explain, the only way to truly judge our sound – and understand what makes Sennheiser unique – is through your senses. This is why we always like to invite you to experience Sennheiser. Your senses will tell you what we can't describe in words: This is how great sound feels.

Sennheiser Wireless Series

The way we communicate is changing: wireless connections to Skype for Business or desk phones have given users a new degree of mobility and the opportunity to perform their tasks more efficiently. This new generation of professional users can now move freely around the office and building, while still being connected. This results in more collaboration, improved job satisfaction and increased productivity.

Benefits and features:

- Sennheiser Voice Clarity – for a natural speech and listening experience
- Noise-canceling microphone – for perfect speech clarity for both the caller and the listener
- Phone conferences – intuitive and easy setup of up to 4 headsets with same base station
- Hot desking with fast, secure pairing – simply dock in the base station
- Full workday of talk time – 8 hours in wideband sound and 12 hours in narrowband sound
- Intelligent fast charging delivers 50% in just 20 minutes
- Long distance wireless range up to 180 m (590 ft) with line of sight – 55 m (180 ft) in typical office environment
- Sennheiser ActiveGard® – hearing protection technology against acoustic shock

D 10 USB ML

- Sennheiser D 10 ML is a single-sided wireless DECT headset made for office professionals
- Single connectivity – connects directly to your Skype for Business client
- 2-in-1 wearing style (headband or ear hook) for all-day use

DW Office ML

- DW Office ML is a single-sided premium wireless DECT headset for quality-conscious business professionals.
- Designed for all-day use, the DW Office ML connects directly to Skype for Business and desk phone to deliver excellent sound quality around the office.
- 2-in-1 wearing style (headband or leatherette ear hook) for all-day use.

DW Pro 1 ML

- DW Pro 1 ML is a single-sided premium wireless DECT headset for quality-conscious business professionals.
- Designed for superior comfort during all-day use, the DW Pro 1 ML connects directly to Skype for Business and desk phone to deliver excellent sound quality around the office.
- Extra soft leatherette ear pads and headband pads for extra comfort.

DW Pro 2 ML

- DW Pro 2 ML is a double-sided premium wireless DECT headset for quality-conscious business professionals.
- Designed for superior comfort during all-day use, the DW Pro 2 ML connects directly to Skype for Business and desk phone to deliver excellent sound quality around the office.
- Extra soft leatherette ear pads and headband pads for extra comfort.

SD Office* ML

- SD Office ML is a single-sided premium wireless DECT headset for quality-conscious business professionals.
- Designed for all-day use, the SD Office ML connects directly to Skype for Business and desk phone to deliver excellent sound quality around the office.
- 2-in-1 wearing style (headband or leatherette ear hook) for all-day use.

SD Pro 1* ML

- SD Pro 1 ML is a single-sided premium wireless DECT headset for quality-conscious business professionals.
- Designed for superior comfort during all-day use, the SD Pro 1 ML connects directly to Skype for Business and desk phone to deliver excellent sound quality around the office.
- Extra soft leatherette ear pads and headband pads for extra comfort.

SD Pro 2* ML

- SD Pro 2 ML is a double-sided premium wireless DECT headset for quality-conscious business professionals.
- Designed for superior comfort during all-day use, the SD Pro 2 ML connects directly to Skype for Business and desk phone to deliver excellent sound quality around the office.
- Extra soft leatherette ear pads and headband pads for extra comfort.

* SD Series available in Americas only.

Sennheiser Bluetooth Series

Whether working on the move, or at home or abroad, Sennheiser Mobile Business Bluetooth® headsets are sleek, smart, and easy to use. Equipped with the latest technology, these ideal communication companions are designed for professionals in office environments and on the move who value the perfect blend of high quality sound and speech, day in, day out.

Presence™ Series

The Presence™ UC ML is a premium headset for mobile Unified Communications professionals using Skype for Business, who require consistently excellent HD sound and Sennheiser Voice Clarity around the office, in the car and outdoors.

MB Pro Series

The MB Pro Series is designed for wireless communication freedom, brilliant sound quality and exceptional wearing comfort.

Presence™ UC ML

- Best-in-class sound quality both indoors and outdoors with SpeakFocus™ and WindSafe™ technologies
- Increased range and 10 hours of talk time for a full workday
- Multi-connectivity – so you can seamlessly switch between Skype for Business and mobile calls

WIND SAFE™ SPEAK FOCUS™

MB Pro 1 UC ML

- Single-sided headset with headband wearing style
- Sennheiser Voice Clarity – for a natural speech and listening experience
- Multi connectivity – so you can seamlessly switch between Skype for Business and mobile calls
- Up to 15 hours of talk time and can be 50% charged in only 40 minutes

MB Pro 2 UC ML

- Double-sided headset with headband wearing style
- Sennheiser Voice Clarity – for a natural speech and listening experience
- Room Experience™ technology - for a more realistic sound and increased call comfort.
- Multi connectivity – so you can seamlessly switch between Skype for Business and mobile calls
- Up to 15 hours of talk time and can be 50% charged in only 40 minutes

Reclaim Your Office

with MB 660 adaptive
ANC headset

MB 660 UC MS

MB 660 UC MS is a new wireless, adaptive ANC headset designed for knowledge workers demanding business-grade communication and premium sound quality for maximum productivity in open offices.

Sound leadership

Sennheiser NoiseGard™ hybrid adaptive ANC technology constantly monitors the background environment for ambient noises and adjusts the level of noise reduction in your headset.

SpeakFocus™ technology with 3 digital microphones and other advanced microphone technologies such as Advanced Own-Voice-Detector and WindSafe™ deliver best in-class voice clarity and optimized speech intelligibility.

Quality design

MB 660 UC MS represents the best in quality materials and comfort. Discreet and elegant use of polished and brushed metals and fine, soft leather ear cups combined with a compact and foldable design for portable style and maximum comfort.

User focus

The MB 660 UC MS comes pre-paired with a Skype for Business Certified BTD 800 USB ML dongle for PC, so you can simply plug n' play with your MB 660 UC MS. With Sennheiser TalkThrough technology, you can listen to your colleagues or keep an ear open for announcements – all without removing your headset.

Benefits and features:

- NoiseGard™ hybrid adaptive noise cancellation – constantly monitors the background environment for ambient noises and adjusts the level of noise reduction in your headset
- SpeakFocus™ technology – with 3 digital microphones enhances voice clarity in all sound environments and provides the user with consistently clear sound
- Advanced Own-Voice-Detector – optimizes speech intelligibility and reduces distracting background noises
- WindSafe™ technology – reduces wind noise in outdoor situations.
- Room Experience™ technology - for a more realistic sound and increased call comfort
- Battery time – Up to 30 hours* long time performance
- Tap-to-pair – with the built-in NFC** function, you can tap your phone to pair your MB 660 instantly with your device
- Folding & storing - easy on/off by turning the ear cups. Foldable design for compact storage

* Up to 30 hours when connecting the headset via cable and engaging noise cancellation. Around 20 hours when connecting the headset via Bluetooth and engaging noise cancellation. The exact operation time is influenced by factors such as the audio and background noise volume

Sennheiser Wired Series

The Sennheiser portfolio of wired headsets is ideal for contact centers, offices and Unified Communications professionals. With a range of wearing styles and ear pads, you will easily find a headset that you can comfortably wear all day.

Culture™ Series

The Sennheiser Culture™ Series headsets (SC 30 USB ML / SC 60 USB ML) are specially designed as a deployment-friendly solution for enterprises transitioning from traditional telephony systems to Skype for Business.

Culture™ Plus Series

With instant fit, excellent sound and refined styling, the Sennheiser Culture Plus Series (SC 40 USB MS / SC 70 USB MS and SC 45 USB MS / SC 75 USB MS) helps smooth user transition from traditional systems to Skype for Business to activate the full potential of your new communication culture.

Circle™ Series

Aimed at users that require contact-center-tested durability, Sennheiser Circle™ Series headsets (SC 230 USB MS II / SC 260 USB MS II) deliver true audio in Sennheiser Voice Clarity and supreme comfort for all-day use in contact center and office environments.

Century™ Series

The Sennheiser Century™ Series headsets (SC 630 USB ML / SC 660 USB ML) are premium headsets specifically designed for quality conscious contact center and office professionals requiring outstanding sound performance.

SC 30 USB ML

- SC 30 USB ML is a single-sided headset designed specifically for Skype for Business
- Lightweight and deployment friendly headset
- Sennheiser Voice Clarity – for a natural speech and listening experience

SC 60 USB ML

- SC 60 USB ML is a double-sided headset designed specifically for Skype for Business
- Lightweight and deployment friendly headset
- Sennheiser Voice Clarity – for a natural speech and listening experience

SC 40 USB MS

- SC 40 USB MS is a single-sided headset for office professionals using Skype for Business
- Sennheiser Voice Clarity and a noise-cancelling microphone optimize speech intelligibility
- Acoustic foam ear pad or soft leatherette cover provide immediate wearing comfort

SC 70 USB MS

- SC 70 USB MS is a double-sided headset for office professionals using Skype for Business
- Sennheiser Voice Clarity and a noise-cancelling microphone optimize speech intelligibility
- Acoustic foam ear pads or soft leatherette covers provide immediate wearing comfort

SC 45 USB MS

- SC 45 USB MS is a single-sided headset for office professionals using Skype for Business
- Dual connectivity – 3.5 mm jack for mobile devices & detachable USB cable for PC
- Sennheiser Voice Clarity and a noise-cancelling microphone optimize speech intelligibility

SC 75 USB MS

- SC 75 USB MS is a double-sided headset for office professionals using Skype for Business
- Dual connectivity – 3.5 mm jack for mobile devices & detachable USB cable for PC
- Sennheiser Voice Clarity and a noise-cancelling microphone optimize speech intelligibility

Sennheiser Wired Series

SC 230 USB MS II

- SC 230 USB MS II is a single-sided headset for contact centers, offices and UC professionals using Skype for Business
- Unique, robust construction crafted with look and feel in mind
- Sennheiser Voice Clarity – for a natural speech and listening experience

SC 260 USB MS II

- SC 260 USB MS II is a double-sided headset for contact centers, offices and UC professionals using Skype for Business
- Unique, robust construction crafted with look and feel in mind
- Sennheiser Voice Clarity – for a natural speech and listening experience

SC 630 USB ML

- SC 630 USB ML is a premium single-sided headset Certified for Skype for Business for all-day use in busy contact centers or offices
- Crafted with high-end materials to ensure maximum durability and design quality
- Sennheiser Voice Clarity – for a natural speech and listening experience

SC 660 USB ML

- SC 660 USB ML is a premium double-sided headset Certified for Skype for Business for all-day use in busy contact centers or offices
- Crafted with high-end materials to ensure maximum durability and design quality
- Sennheiser Voice Clarity – for a natural speech and listening experience

USB-ED CC 01 MS

- Smooth transition to Skype for Business – with plug-and-play USB connectivity for fast and simple setup
- Maximize investment – continue using Sennheiser CIRCLE™ and CENTURY™ headset variants with Easy Disconnect plug (SC 230/SC 260 and SC 630/SC 660)

Sennheiser Speakerphone Series

The Sennheiser Series of compact, portable speakerphones is designed to provide flexible conferencing solutions for business professionals. Literally plug in and talk, it is ideal for both personal and small group conferences. Streamlined styling, superb finish and a lightweight design signal highend quality on the desk – or wherever you choose to make your office.

Benefits and features:

- Compact and portable – lightweight for mobile professionals
- Discrete design – premium styling for discerning users
- Outstanding communication – Sennheiser Voice Clarity and echo cancellation for a natural speech and listening experience
- Better quality conferencing – replaces PC and mobile phone speakers and microphone for a superior quality audio experience
- Intuitive user interface – clear microphone mute button, call and volume control and easy cable management
- Hands-free operation – the freedom to call and work
- Long talk time – up to 20 hours

Sennheiser Voice Clarity

The natural listening experience

For the best possible communication between caller and listener, Sennheiser Voice Clarity uniquely enhances the most important frequencies and details of the human voice. For the caller, sound is crisper and clearer, allowing them to hear the nuances contained in spoken conversation; for the listener, a noise-cancelling microphone sends the clearest signal to improve speech intelligibility. In combination this results in better, more natural sounding conversations where no important details are lost.

ActiveGard[®] Technology

Hearing protection

During the course of a day, headset users may be exposed to seldom, but hazardous incoming noises that can be dangerous to the hearing. Technically referred to as a sound burst, this can potentially cause long-lasting damage to the human ear. To safeguard users, all Sennheiser headsets for contact center and office environments are equipped with the innovative ActiveGard[®] technology.

Experience Sennheiser

Hear the difference at www.sennheiser.com/experiencesennheiser or demo by scanning the QR-codes below.

Play sound with ActiveGard[®]

Please be warned that the sound without ActiveGard[®] can be extremely high. We recommend the volume should be set low when playing.

Sennheiser

– world leaders in
professional audio
and voice
communication

The Sennheiser story

For 70 years, the name Sennheiser has stood for the highest quality products and customized solutions across all areas of sound recording, transmission and reproduction. As one of the world's leading providers of integrated solutions for electro-acoustic products, systems and services, Sennheiser constantly sets itself the challenge of developing creative solutions that satisfy the requests and requirements of our customers.

What motivates Sennheiser

A series of groundbreaking innovations has given Sennheiser and its products their well-deserved global reputation: these include the invention of the shotgun microphone in the fifties and the development of open headphones in the sixties. This was followed in the seventies by infrared transmission technology and in the eighties by innovations in multi-

channel RF wireless transmission. Head-related surround sound systems were the highlight of the nineties, and intelligent audio information systems were launched in the new millennium.

Products and systems

The range of products on offer include headphones, wireless microphone and monitoring systems, conference and information systems as well as aviation and audiology products. The world's leading manufacturer of studio microphones, Georg Neumann, is also part of the Sennheiser Group.

Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets and speakerphones depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headsets and speakerphones, the combination of Sennheiser sound leadership, quality design and build – and a focus on real life usability – give the best performance possible in offices, contact centers and Unified Communications environments.

Please visit us at: www.sennheiser.com/cco

Sennheiser is one of the world's leading manufacturers of headphones, microphones, wireless transmission systems and high-quality headsets for both business and entertainment.

Drawing on the electro acoustics expertise of Sennheiser and the leading hearing healthcare specialist William Demant, Sennheiser Communications' wireless and wired headsets and speakerphones for contact centers, offices and Unified Communications professionals are the result of Sennheiser's and William Demant's joint leadership in sound quality, design, wearing comfort and hearing protection.
